

RUPERT RESOURCES LTD.

CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED

FEBRUARY 29, 2020 AND FEBRUARY 28, 2019

(EXPRESSED IN CANADIAN DOLLARS)

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying consolidated financial statements of Rupert Resources Ltd. (the "Company") are the responsibility of management and the Board of Directors.

The consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the consolidated financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the reporting date. In the opinion of management, the consolidated financial statements have been prepared within acceptable limits of materiality and are in compliance with all applicable International Financial Reporting Standards.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the consolidated financial statements; and (ii) the consolidated financial statements fairly present in all material respects the financial condition, financial performance and cash flows of the Company, as of the date of and for the years presented by the consolidated financial statements.

The Board of Directors is responsible for reviewing and approving the consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

Independent Auditor's Report

To the Shareholders of Rupert Resources Ltd.:

Opinion

We have audited the consolidated financial statements of Rupert Resources Ltd. and its subsidiaries (the "Company"), which comprise the consolidated statements of financial position as at February 29, 2020 and February 28, 2019, and the consolidated statements of loss and comprehensive loss, changes in capital and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at February 29, 2020 and February 28, 2019, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated. We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Brock Stroud.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

1. Nature of Operations

Rupert Resources Ltd. (the "Company" or "Rupert") is a company incorporated under the laws of the Province of British Columbia. The Company is currently seeking out viable mineral exploration and evaluation opportunities and its primary projects located in Finland. The business of exploring for minerals involves a high degree of risk and there can be no assurance that planned exploration programs will result in profitable mining operations. The Company's primary office is The Canadian Venture Building, 82 Richmond St East, Suite 202, Toronto, Ontario M5C 1P1.

The Company's outstanding common shares trade on the TSX Venture Exchange under the symbol RUP. As at February 29, 2020, an investor of the Company, Alan Brimacombe, controlled 19,196,300 common shares of the Company or approximately 12% of the total common shares outstanding. To the knowledge of directors and officers of Rupert, the remainder of the Company's outstanding common shares are widely held. These holdings can change at any time at the discretion of the owner.

In June 2016, Company incorporated a wholly owned subsidiary, Rupert Finland Oy and in May 2018 the Company acquired Northern Aspect Resources Ltd. ("NARL") (note 11).

2. Significant Accounting Policies

(a) Statement of Compliance

These consolidated financial statements have been prepared in accordance with IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the IFRS Interpretations Committee ("IFRIC"), effective for the Company's reporting for the years ended February 29, 2020 and February 28, 2019.

The Board of Directors approved the financial statements on June 2, 2020.

(b) Basis of Consolidation

These consolidated financial statements incorporate the financial statements of the Company and its wholly owned subsidiaries (collectively "the Group"). Subsidiaries are entities controlled directly or indirectly by the Company. Control is the power to govern the financial and operating policies of an entity to obtain benefits from its activities. Subsidiaries are included in the consolidated financial statements from the date control is obtained until the date control ceases. The Company's subsidiaries are, Rupert Finland Oy, BR Gold Mining Oy, Northern Aspect Resources Oy and Northern Aspect Resources Ltd.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(c) Basis of Presentation

These consolidated financial statements have been prepared on a historical cost basis, except for financial instruments which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

In the preparation of these consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the period. Actual results could differ from these estimates. Of particular significance are the estimates and assumptions used in the recognition and measurement of items included in note (o) below.

(d) Business Combinations

Business combinations are accounted for under the acquisition method. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Company, if any, at the date control is obtained. The consideration transferred includes the fair value of any liability resulting from a contingent consideration arrangement. Acquisition-related costs, other than share and debt issue costs incurred to issue financial instruments that form part of the consideration transferred, are expensed as incurred. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair value at the acquisition date. If a business combination is achieved in stages, the Company remeasures its previously held interest in the acquiree at its acquisition-date fair value and recognizes the resulting gain or loss, if any, in net income. Contingent consideration is classified as a provision and is measured at fair value, with subsequent changes recognized in income. If the contingent consideration is classified as equity, it is not remeasured until it is finally settled within equity. New information obtained during the measurement period, up to 12 months following the acquisition date, about facts and circumstances existing at the acquisition date affect the acquisition accounting.

(e) Financial assets and liabilities

The Company's financial instruments consist of the following:

Financial assets:

Cash and cash equivalents
Restricted cash
Marketable securities

Classification:

Amortized cost
Amortized cost
Fair value through profit and loss ("FVTPL")

Financial liabilities:

Amounts payable and accrued liabilities
Convertible debentures

Classification:

Amortized cost
Amortized cost

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(e) Financial assets and liabilities (continued)

Financial assets

Financial assets are classified as either financial assets at fair value through profit or loss, amortized cost, or fair value through other comprehensive income. The Company determines the classification of its financial assets at initial recognition.

i. Financial assets recorded at fair value through profit or loss ("FVTPL")

Financial assets are classified as fair value through profit or loss if they do not meet the criteria of amortized cost or fair value through other comprehensive income. Gains or losses on these items are recognized in profit or loss.

ii. Amortized cost

Financial assets are classified as measured at amortized cost if both of the following criteria are met and the financial assets are not designated as at fair value through profit and loss: 1) the object of the Company's business model for these financial assets is to collect their contractual cash flows; and 2) the asset's contractual cash flows represent "solely payments of principal and interest".

iii. Fair value through other comprehensive income ("FVOCI")

All financial assets not classified at amortized cost or FVOCI are measured at FVTPL. On initial recognition, the Company can irrevocably designate a financial asset at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

Financial liabilities

Financial liabilities are classified as either financial liabilities at fair value through profit or loss or at amortized cost. The Company determines the classification of its financial liabilities at initial recognition.

i. Amortized cost

Financial liabilities are classified as measured at amortized cost unless they fall into one of the following categories: financial liabilities at fair value through profit or loss, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition, financial guarantee contracts, commitments to provide a loan at a below-market interest rate, or contingent consideration recognized by an acquirer in a business combination.

ii. Financial liabilities recorded fair value through profit or loss ("FVTPL")

Financial liabilities are classified as fair value through profit or loss if they fall into one of the five exemptions detailed above.

Transaction costs

Transaction costs associated with financial instruments, carried at fair value through profit or loss, are expensed as incurred, while transaction costs associated with all other financial instruments are included in the initial carrying amount of the asset or the liability.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(e) Financial assets and liabilities (continued)

Subsequent measurement

Instruments classified as FVTPL are measured at fair value with unrealized gains and losses recognized in profit or loss. Instruments classified as amortized cost are measured at amortized cost using the effective interest rate method. Instruments classified as FVOCI are measured at fair value with unrealized gains and losses recognized in other comprehensive income.

Derecognition

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled, or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

Expected Credit Loss Impairment Model

IFRS 9 introduced a single expected credit loss impairment model, which is based on changes in credit quality since initial application. The adoption of the expected credit loss impairment model had no impact on the Company's financial statements.

The carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Financial instruments recorded at fair value:

Financial instruments recorded at fair value on the statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of February 29, 2020 and February 28, 2019, except for marketable securities, none of the Company's financial instruments are recorded at fair value in the statements of financial position. Marketable securities are classified as Level 1.

(f) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its non-financial assets with finite lives to determine whether there is any indication that those assets have suffered an impairment loss. Where such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. The recoverable amount is the higher of an asset's fair value less cost to sell or its value in use. In addition, long-lived assets that are not amortized are subject to an annual impairment assessment.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(g) Exploration and evaluation expenditures

Exploration and evaluation assets include the costs of acquiring licenses, costs associated with exploration and evaluation activity, and the fair value (at acquisition date) of exploration and evaluation assets acquired in a business combination. All costs related to the acquisition, exploration and development of mineral properties are capitalized by property as an intangible asset. Costs incurred before the Company has obtained the legal rights to explore an area are recognized in the profit and loss statement.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount. Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets within property, plant and equipment.

Recoverability of the carrying amount of the exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

(h) Buildings and Equipment

Buildings and equipment are carried at cost less accumulated depreciation and any recognized impairment loss. Cost includes expenditures directly attributable with bringing the asset to its operating location and condition. Depreciation of buildings and equipment used in exploration and evaluation activities is expensed. When the Company commences development activities, depreciation of buildings and equipment used for development activities will be capitalized in Mineral Properties. Depreciation is computed using the declining-balance method at rates varying from 10% to 40%.

(i) Provisions

i) Environmental rehabilitation provisions

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations, including those associated with the reclamation of exploration and evaluation assets and equipment, when those obligations result from the acquisition, construction, development or normal operation of the assets. Initially, a liability for an environmental rehabilitation obligation is recognized at its fair value in the period in which it is incurred if a reasonable estimate of cost can be made. The Company records the present value of estimated future cash flows associated with reclamation as a liability when the liability is incurred and increases the carrying value of the related assets for that amount. Subsequently, these capitalized asset retirement costs are amortized over the life of the related assets. At the end of each period, the liability is increased to reflect the passage of time (accretion expense) and changes in the estimated future cash flows underlying any initial estimates (additional rehabilitation costs). The Company recognizes its environmental liability on a site-by-site basis when it can be reliably estimated (note 13).

Environmental expenditures related to existing conditions from past or current operations and which no current or future benefit is discernible, are charged to the profit and loss statement.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(i) *Provisions (continued)*

ii) *Other provisions*

A provision is recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be reliably estimated. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract.

The Company had no material provisions as at February 29, 2020 and February 28, 2019.

(j) *Finance costs*

Costs incurred on the issuance of the Company's equity instruments are charged directly to the respective equity account.

(k) *Flow-through shares*

Flow-through shares are a unique Canadian tax incentive. They are the subject of specific guidance under US GAAP, but there is no equivalent IFRS guidance. Therefore, the Company has adopted a policy whereby flow-through proceeds are allocated between the offering of the common shares and the sale of tax benefits when the common shares are offered. The allocation is made based on the difference between the quoted price of the common shares and the amount the investor pays for the flow-through shares. A deferred premium on flow-through shares liability is recognized for the premium paid by the investors. The premium is credited to other liabilities and included in income at the time the qualifying expenditures are made. A deferred tax liability is recognized in accordance with IAS 12, Income Taxes, for the tax base of the properties less the amount renounced.

(l) *Share-based payment transactions*

The fair value of share options granted to employees is recognized as an expense over the vesting period with a corresponding increase in equity. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee, including directors of the Company. The fair value is measured at the grant date and recognized over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option-pricing model, taking into account the terms and conditions upon which the options were granted. At the end of each reporting period, the amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest.

The fair value of share-based payments to non-employees and other share-based payments are based on the fair value of the goods or services received. If the Company cannot estimate reliably the fair value of the goods or services received, the Company is required to measure their value, and the corresponding increase in equity, indirectly, by reference to the fair value of the equity instruments granted at the date the Company receives the goods or services.

If and when the stock options are exercised, the applicable amounts of reserves are transferred to share capital. When vested options are forfeited or not exercised at the expiry date the amount previously recognized in share-based payments is revised from share-based payment reserve to deficit. Amounts recorded for forfeited or expired unexercised warrants are transferred to share capital.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(m) Income taxes

Income tax on the profit or loss for the year presented comprises current and deferred tax. Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at period end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is provided using the asset and liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes and the initial recognition of assets or liabilities that affect neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the financial position reporting date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. To the extent that the Company does not consider it probable that a deferred tax asset will be recovered, it does not recognize the excess.

(n) Loss per share

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share is determined by adjusting the loss attributable to common shareholders and the weighted average number of common shares outstanding for the effects of all warrants and options outstanding that may add to the total number of common shares.

(o) Significant accounting judgments and estimates

The preparation of these consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These consolidated financial statements include estimates that, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(o) *Significant accounting judgments and estimates (continued)*

Critical accounting estimates

Significant assumptions about the future that management has made that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- *Capitalization of exploration and evaluation costs:*
Management has determined that exploration and evaluation costs incurred during the year have future economic benefits and are economically recoverable. In making this judgment, management has assessed various sources of information including but not limited to the geologic and metallurgic information, history of conversion of mineral deposits to proven and probable mineral reserves, scoping and feasibility studies, proximity of operating facilities, operating management expertise and existing permits. See Note 11 for details of capitalized exploration and evaluation costs.
- *Impairment / reversal of impairment of exploration and evaluation assets:*
While assessing whether any indications of impairment or reversal of impairment exist for exploration and evaluation assets, consideration is given to both external and internal sources of information. Information the Company considers include changes in the market, economic and legal environment in which the Company operates that are not within its control and affect the recoverable amount of exploration and evaluation assets. Internal sources of information include the manner in which exploration and evaluation assets are being used or are expected to be used and indications of expected economic performance of the assets. Estimates include but are not limited to estimates of the discounted future after-tax cash flows expected to be derived from the Company's mineral properties, costs to sell the properties and the appropriate discount rate. Reductions in metal price forecasts, increases in estimated future costs of production, increases in estimated future capital costs, reductions in the amount of recoverable mineral reserves and mineral resources and/or adverse current economics can result in a write-down of the carrying amounts of the Company's exploration and evaluation assets. Evaluating whether an asset is impaired or if an impairment should be reversed requires a high degree of judgment and may to a large extent, depend upon the selection of key assumptions about the future. Impairment is reversed, as applicable, to the extent that conditions for impairment are no longer present.
- *Estimation of decommissioning and restoration costs and the timing of expenditure:*
Decommissioning, restoration and similar liabilities are estimated based on the Company's interpretation of current regulatory requirements, constructive obligations and are measured at fair value. Fair value is determined based on the net present value of estimated future cash expenditures for the settlement of decommissioning, restoration or similar liabilities that may occur upon decommissioning of the mine. Such estimates are subject to change based on changes in laws and regulations and negotiations with regulatory authorities.
- *Share-based payments:*
Management determines costs for share-based payments using market-based valuation techniques. The fair value of the market-based and performance-based non-vested share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgment used in applying valuation techniques. These assumptions and judgments include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and future employee stock option exercise behaviours and corporate performance. Such judgments and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(o) Significant accounting judgments and estimates (continued)

Critical accounting judgments

- The categorization of financial assets and liabilities and functional currency determination are accounting policies that requires management to make judgments or assessments.
- Management's judgment is used in determining the eligible expenditures used in the recognition of tax credits receivable.
- Management applied judgment in determining the Company's ability to continue as a going concern.

(p) Foreign Currencies

The functional currency of the Company and its subsidiary, Northern Aspect Resources Ltd, is the Canadian Dollar. The functional currency of the Company's subsidiaries, Rupert Finland Oy, BR Gold Mining Oy and Northern Aspect Resources Oy, is the European Euro. For the purpose of the consolidated financial statements, the results and financial position are expressed in Canadian Dollars.

The consolidated financial statements of foreign subsidiaries for which the functional currency is not the Canadian dollar are translated into Canadian dollars using the exchange rate in effect at the end of the reporting period for assets and liabilities and the average exchange rates for the period for revenue, expenses and cash flows. Foreign exchange differences arising on translation are recognized in other comprehensive income (loss) and in the cumulative transaction adjustment in shareholders' equity.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(q) New Accounting Policies Adopted

IFRS 16 was issued in January 2016 and replaces IAS 17 – Leases as well as some lease related interpretations. With certain exceptions for leases under twelve months in length or for assets of low value, IFRS 16 states that upon lease commencement a lessee recognises a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the liability plus any initial direct costs. After lease commencement, the lessee shall measure the right-of-use asset at cost less accumulated depreciation and accumulated impairment. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognise the cumulative effect of initially applying IFRS 16 as an adjustment to opening equity at the date of initial application. IFRS 16 requires that lessors classify each lease as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise it is an operating lease. Based on the Company's assessment, the Company has determined that this standard has no significant impact on its consolidated financial statements.

IFRIC 23 clarifies the accounting for uncertainties in income taxes. The interpretation requires the entity to use the most likely amount or the expected value of the tax treatment if it concludes that it is not probable that a particular tax treatment will be accepted. It requires an entity to assume that a taxation authority with the right to examine any amounts reported to it will examine those amounts and will have full knowledge of all relevant information when doing so. The requirements are applied by recognizing the cumulative effect of initially applying them in retained earnings, or in other appropriate components of equity, at the start of the reporting period in which an entity first applies them, without adjusting comparative information. Full retrospective application is permitted, if an entity can do so without using hindsight. Based on the Company's assessment, the Company has determined that this standard has no significant impact on its consolidated financial statements.

(r) Future Accounting Pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after March 1, 2021. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

IAS 1 – Presentation of Financial Statements (“IAS 1”) and IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors (“IAS 8”)

IAS 1 and IAS 8 were amended in October 2018 to refine the definition of materiality and clarify its characteristics. The revised definition focuses on the idea that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments are effective for annual reporting periods beginning on or after January 1, 2020. Earlier adoption is permitted. The Company has determined that this standard will not have a significant impact on its consolidated financial statements.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

3. Capital Risk Management

The Company manages its capital to ensure that funds are available or are scheduled to be raised to provide adequate funds to conduct exploration of its property interests, search for and evaluate potential business opportunities and to meet its ongoing administrative costs. The Company considers its capital to be equity, which comprises share capital, reserves and deficit, which at February 29, 2020, totaled \$48,006,096 (February 28, 2019 - \$23,925,065).

This is achieved by the Board of Directors' review and acceptance of budgets that are achievable within existing resources and the timely matching and release of expenditures with the resources made available from private placements or other fund raisings.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than Policy 2.5 of the TSXV which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months. As of February 29, 2020, the Company is compliant with Policy 2.5.

The Company is not subject to any material externally imposed capital requirements or covenants.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is appropriate.

There were no changes in the Company's approach to capital management during the years ended February 29, 2020 and February 28, 2019.

4. Financial Risk Management

(i) Financial risk

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate, foreign currency and equity price risk). Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

(ii) Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfil its payment obligations. The Company's credit risk is primarily attributable to cash. Cash is held with select major Canadian and Finland chartered banks, from which management believes the risk of loss to be minimal. The Company also believes risk of loss related to the other receivable balance is minimal.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if its access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or matters specific to the Company. The Company generates cash flow primarily from its financing activities. As at February 29, 2020, the Company had cash of \$14,313,403 (February 28, 2019 - \$5,949,381) to settle current liabilities of \$2,388,987 (February 28, 2019 - \$8,743,902). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company regularly evaluates its cash position to ensure preservation and security of capital as well as liquidity.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

4. Financial Risk Management (continued)

(iv) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and equity price risk.

(a) Interest rate risk

The Company has cash balances and only fixed interest-bearing debt (see note 14). The Company's current policy is to invest excess cash in guaranteed investment certificates or interest-bearing accounts of major Canadian chartered banks. The Company regularly monitors compliance to its cash management policy. Management believes interest rate risk to be minimal.

(b) Foreign currency risk

The Company's functional and reporting currency is the Canadian dollar but is exposed to foreign currency risk with respect to the expenditures incurred by its Finland subsidiary.

(c) Equity price risk

The Company is exposed to price risk with respect to equity and commodity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, individual equity movements and the stock market in general to determine the appropriate course of action to be taken by the Company.

(v) Sensitivity analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are reasonably possible over a twelve month period:

(a) The Company has no debt with variable interest rates. Sensitivity to a plus or minus one percentage point change in interest rates would not have a significant impact on the reported net loss and comprehensive loss.

(b) The Company has a subsidiary with balances denominated in European Euro. Sensitivity to a plus or minus five percentage point change in exchange rates would lead to a \$1,159,615 gain/loss in the reported net loss and comprehensive loss for the year ended February 29, 2020.

Prepaid expenses and sundry receivables	\$ 149,337	\$ 210,677
Other receivable	15,947	-
Sales tax receivable	199,072	180,995
	\$ 364,356	\$ 391,672

9. Restricted Cash

In connection with the acquisition of the Pahtavaara Gold Mine, the Company purchased environmental bonds of EURO 640,000 in July of 2016. In March 2017, October 2017 and October 2019, the Company purchased additional environmental bonds of EURO 30,000, EURO 60,000, and EURO 150,000, respectively. The sole purpose of these bonds is for settling the future restoration obligations of the Pahtavaara Gold Mine (note 13). The bonds are not interest-bearing and have no maturity date. This cash is not available for general corporate purposes.

In March 2017, the Company paid a EURO 60,000 deposit with a utility company to protect them against the risk of default. This was repaid to the Company in March 2019.

In connection with the acquisition of Northern Aspect Resources Ltd in 2019, the Company acquired a EURO 12,500 deposit. The sole purpose of the deposit is for settling the future restoration obligations of the Hirsikangas Gold Project. The deposit are not interest-bearing and have no maturity date. This cash is not available for general corporate purposes.

Pahtavaara Gold Mine

On August 30, 2016, the Company exercised the option with the bankruptcy estate of Lapland Goldminers Oy to acquire the Pahtavaara gold mine, mill and exploration permits and concessions that represent a 124km² land package in Finland in the Central Lapland Greenstone Belt. The purchase price for the acquisition is US\$2,500,000, structured as a US\$500,000 cash payment which was made upon the completion of the acquisition in November 2016 and a 1.5% production royalty, capped at US\$2,000,000, payable on go-forward revenues generated when gold production resumes. The production royalty, which is considered contingent consideration, was valued at \$nil on the date of acquisition and as at February 29, 2020 and February 28, 2019.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

11. Exploration and Evaluation Assets (continued)

Northern Aspect Resources Ltd ("NARL")

On March 20, 2018, the Company entered into a binding, definitive share exchange agreement with Northern Aspect Resources Ltd and all of the shareholders of NARL to acquire all of the issued and outstanding securities in NARL (the "**NARL transaction**"), subject to certain conditions, including inter alia, definitive approval from the TSX-V. On May 15, 2018, the Company received definitive approval from the TSX-V to acquire all the issued and outstanding securities of NARL and that it had completed the NARL transaction through issue of 4,913,466 consideration shares of which directors and officers of the Company received 750,000 shares.

The transaction does not constitute a business combination as NARL does not meet the definition of a business under IFRS 3, Business Combinations. As a result, the transaction is accounted for as an acquisition of assets.

The Osikonmaki and Hirsikangas mineral properties were acquired as part of the NARL transaction. These properties were in the exploration and evaluation stages at acquisition. The acquisition has been measured using the fair value of the consideration transferred. The excess of the consideration transferred over the fair value of the other net assets and liabilities has been allocated to the mineral properties.

The purchase price allocation is set out as follows:

Issuance of 4,913,466 common shares ⁽¹⁾	<u>\$ 5,404,813</u>
Allocation of purchase price:	
Cash	\$ 293,976
Prepaid and other receivables	109,611
Equipment	42,894
Mining property	5,333,681
Accounts payable and accrued liabilities	<u>(375,349)</u>
Total	<u>\$ 5,404,813</u>

⁽¹⁾ The value of the common shares was based on the fair value of the shares on date of close (May 11, 2018).

12. Amounts Payable and Accrued Liabilities

	As at February 29, 2020	As at February 28, 2019
Trade payables	\$ 1,279,107	\$ 771,172

13. Asset retirement obligation

Balance, February 28, 2019	\$ 1,203,465
Foreign exchange adjustment	(17,982)
Present value adjustment	3,641
Balance, February 29, 2020	\$ 1,189,124
Balance, February 28, 2018	\$ 949,167
Foreign exchange adjustment	(39,264)
Add: increase in restoration provision	297,327
Present value adjustment	(3,765)
Balance, February 28, 2019	\$ 1,203,465

On August 30, 2016, as part of the acquisition of the Pahtavaara Gold Mine, the Company recognized obligations for future site restoration. Although the ultimate amount of the future site restoration is uncertain, the fair value of the obligation was based on information currently available, including disturbances made to date, closure plans and applicable regulations. The amounts and timing of the closure plans will vary depending on a number of factors including alternative mine plans.

The total undiscounted amount of estimated future cash flows required to settle obligations related to the Pahtavaara were EURO850,000 (\$1,255,110). The estimated future cash flows have been discounted using the Finland 10 year government bond yield, at the time the liability was estimated, at 0.483%.

In 2019, the Company increased its obligation by EURO210,000 (\$314,790). The current amount of the obligation remains unchanged for 2020.

These obligations are expected to be settled at the end of the mine life which is estimated to be 13 years. The asset retirement obligation was discounted at a rate of 0.44%.

Refer to note 9 for assets pledged and restricted for the purposes of settling future site restoration obligations.

14. Convertible Debentures

On September 6, 2016, the Company issued unsecured convertible debentures with a total principal amount of \$7,707,500. Total transaction costs of \$72,015 were incurred on the issuance. The debentures were to mature on September 6, 2019 and bore interest at an annual rate of 5%, payable on a semi-annual basis. The convertible debentures will be convertible into common shares of the Company at the option of the holder prior to maturity, at a price of \$0.95 per common share.

After 12 months after the issue date of the convertible debentures, the Company had the option to repay the principal amounts of the convertible debentures in common shares provided certain circumstances were met, including that the 30 trading day volume weighted average price of the common shares is equal to or greater than 170% of the conversion price of \$0.95.

Rupert Resources Ltd.
Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

14. Convertible Debentures (continued)

The Company used the residual value method to allocate the principal amount of the convertible debentures between the liability and equity components. The Company valued the debt component of the convertible debentures by calculating the present value of the principal and interest payments, discounted at a rate of 18%, being management's best estimate of the rate that a non-convertible debenture with similar terms would bear. The equity conversion feature of the convertible debentures comprise the value of the conversion option, being the difference between the face value of the convertible debentures and the liability element calculated above. Based on this calculation, the liability component was \$5,300,700 (\$5,350,695 net of transaction costs) and the residual equity component was \$1,716,066.

During the year ended February 29, 2020, the Company filed an application to amend the terms the convertible debenture. The amendment decrease the conversion price at which each Convertible Debenture converted into common shares of the Company ("Common Shares") from \$0.95 per common share to \$0.85 per common share. The change in conversion price was accounted for as a debt extinguishment in accordance with IFRS 9 on the date of modification which had no impact to the consolidated financial statements.

In connection with the conversion, the Company issued 8,667,643 common shares, converting a principle of \$7,367,500 into common shares to certain holders of the debentures and interest was paid up to the date of conversion.

Stock options exercised	150,000	63,750
Share issue costs	-	(185,911)
Shares issued for debt conversion ⁽⁴⁾	8,667,643	8,985,564
Balance, February 29, 2020	155,470,761	\$ 80,328,629
Balance, February 28, 2018	101,214,992	\$ 36,106,781
Private placement ⁽¹⁾⁽³⁾	15,152,615	12,299,199
Share issue costs	-	(221,062)
Stock options exercised	1,800,000	626,419
Shares issued for NARL acquisition (note 11)	4,913,466	5,404,813
Shares cancelled ⁽²⁾	(352,500)	-
Balance, February 28, 2019	122,728,573	\$ 54,216,150

(1) On March 02, 2018, the Company closed a non-brokered private placement and has issued 5,903,615 common shares of the Company at a price of \$0.83 per Common Share for gross proceeds of \$4,900,000. \$2,465,951 was received prior to February 28, 2018 and as at that date was included in shares to be issued. The Company has agreed to pay cash finder's fees in respect of certain sales under the Private Placement: (i) to Smaller Capital Company, \$50,000, (ii) to Haywood Securities Inc., \$32,000, and (iii) to Canaccord Genuity Limited, \$4,000. In connection with the offering, legal fees and other expenses of \$46,608 were paid.

(2) On March 15, 2018, the Company cancelled 352,500 common shares for no consideration. The shares had been held in escrow, and in accordance with the escrow agreement, have now been cancelled.

(3) On November 30, 2018, the Company closed a non-brokered private placement and has issued 9,249,000 common shares of the Company at a price of \$0.80 per Common Share for gross proceeds of \$7,399,200. The Company has agreed to pay cash finder's fees in respect of certain sales under the Private Placement: (i) to Smaller Capital Company, \$10,000, and (ii) to Canaccord Genuity Limited, \$3,504. In connection with the offering, legal fees and other expenses of \$74,950 were paid.

(4) During the year ended February 29, 2020, a principle of \$7,367,500 was converted into 8,667,643 common shares. The amount of \$1,640,366 was moved to share capital from the equity portion of convertible debentures.

(5) On September 9, 2019, the Company closed a non brokered private placement by issuing 8,532,940 common shares at a price of \$0.85 per share for a gross proceed of \$7,252,999. In connection with the offering, legal fees and other expenses of \$87,342 were paid.

Notes to Consolidated Financial Statements
Year Ended February 29, 2020
(Expressed in Canadian Dollars)

15. Share Capital and Reserves (continued)

Issued Share Capital (continued)

(6) On February 11, 2020 the Company closed a non-brokered private placement with Agnico Eagle Mines Limited (“Agnico”). Agnico has acquired 15,391,605 units of the Company (the “Units”) at a subscription price of \$0.85 per Unit, for gross proceeds to Rupert of \$13,082,864. Each Unit is comprised of (i) one Common Share; and (ii) 0.75 of a non-transferrable, common share purchase warrant, which will entitle Agnico to purchase, for a period of three years from the date of issue, one Common Share for each whole warrant at an exercise price of \$1.00 per Common Share. The warrants provide that, beginning two years from the date of issue, if the price of the Common Shares on the TSX Venture Exchange exceeds \$1.25 per Common Share for at least 20 consecutive trading days, Rupert shall have the right to accelerate, by notice to Agnico, the expiry date of the warrants to 30 calendar days after the date of such notice (such that Agnico may either exercise all or a portion of the warrants in such 30 day period, or failing such exercise, any unexercised warrants would expire). In connection with the offering, legal fees of \$61,486 were paid.

The fair value of the warrants at issue date was \$3,086,786, as calculated using the Black-Scholes option pricing model with the following assumptions: a 3 years expected average life; share price of \$0.84; 54% expected volatility; risk free interest rate of 1.42%; and an expected dividend yield of 0%. Volatility is calculated based on the changes in historical stock prices over the expected life of the warrants.

Stock Options

The Company has an incentive stock option plan in place under which it is authorized to grant options to directors and employees to acquire up to 10% of the Company’s issued and outstanding common shares. Under the plan, the exercise price of each option may not be less than the market price of the Company’s stock as calculated on the date of grant less the applicable discount. The options can be granted for a maximum term of 10 years and vesting periods are determined by the Board of Directors.

The following table reflects the continuity of stock options for the year ended February 29, 2020 and February 28, 2019:

	Number of Stock Options	Weighted Average Exercise Price (\$)
Balance, February 28, 2019	8,135,000	0.74
Granted ⁽²⁾	2,475,000	0.87
Exercised	(150,000)	0.175
Balance, February 29, 2020	10,460,000	0.78
Balance, February 28, 2018	8,315,000	0.49
Expired	(1,005,000)	0.40
Granted ⁽¹⁾	2,625,000	1.00
Exercised	(1,800,000)	0.15
Balance, February 28, 2019	8,135,000	0.74

(1) On August 1, 2018, the Company granted 2,625,000 stock options at a price of \$1.00 per share, expiring on July 31, 2023. The fair value of these options at the date of grant was estimated using the Black-Scholes option pricing model with the following assumptions: a five year expected average life; share price of \$1.00; 113% expected volatility; risk-free interest rate of 2.25%; and an expected dividend yield of 0%. Volatility is calculated based on the changes in historical stock prices over the expected life of the options. The fair value assigned to these options was \$2,112,600. The options vest 50% on each of July 31, 2019 and July 31, 2020.

Year Ended February 29, 2020
(Expressed in Canadian Dollars)

15. Share Capital and Reserves (continued)

Stock Options (continued)

(2) On August 22, 2019, the Company granted 2,475,000 stock options at a price of \$0.87 per share to certain directors, officers and employees of the Company, expiring on August 21, 2024. The fair value of these options at the date of grant was estimated using the Black-Scholes option pricing model with the following assumptions: a five year expected average life; share price of \$0.812; 101% expected volatility; risk-free interest rate of 1.32%; and an expected dividend yield of 0%. Volatility is calculated based on the changes in historical stock prices over the expected life of the options. The fair value assigned to these options was \$1,486,238. The options will vest 50% on each of August 21, 2020 and August 21, 2021.

For the year ended February 29, 2020, the impact on share-based compensation was \$1,718,759 (year ended February 28, 2019 - \$1,785,337).

The following table reflects the actual stock options issued and outstanding as of February 29, 2020:

Expiry Date	Exercise Price (\$)	Remaining Contractual Life (years)	Number of Options Outstanding	Number of Options Vested (exercisable)	Number of Options Unvested
March 24, 2021	0.175	1.07	1,890,000	1,890,000	-

20. Commitments and Contingencies

The Company's operations are subject to government environmental protection legislation. Environmental consequences are difficult to identify in terms of results, timetable and impact (note 13).

At this time, to management's best knowledge, the Company's operations are in compliance with current laws and regulations.

21. Income Taxes

Major items causing the Company's income tax rate to differ from the combined Canadian federal and provincial statutory rate of approximately 26.50% (2019 - 26.50%) are as follows:

	2020	2019
Loss before income taxes	\$ (4,840,940)	\$ (5,449,052)
Income tax benefit at the combined Canadian statutory income tax rate	(1,282,850)	(1,444,000)
Adjustment to expected income tax benefit:		
Difference in tax rates	43,650	48,220
Tax rate changes and other adjustments	(6,310)	(74,650)
Share based compensation and non-deductible expenses	455,470	473,110
NARL acquisition	-	(26,120)
Effect of convertible debenture	153,160	-
Share issue cost	(50,380)	(72,650)
Benefit of tax loss not recognized	687,260	1,096,090
Net deferred income tax provision (recovery)	\$ -	\$ -

Deferred tax assets

The following table summarizes the components of deferred tax:

	Opening balance	Recognized in net loss	Recognized in equity	Ending balance
Deferred Tax Assets				
Non-capital losses carried forward	\$ 1,394,500	634,373	-	\$ 2,028,873
Deferred Tax Liabilities				
Convertible debentures	(120,420)	120,420	-	-
Exploration and Evaluation Assets	(1,274,080)	(754,793)	-	(2,028,873)
	\$ -	-	-	\$ -

Deferred taxes are provided as a result of temporary differences that arise due to the differences between the income tax values and the carrying amount of assets and liabilities. Deferred tax asset of non-capital losses have been recognized up to the amount of deferred tax liabilities. Other deferred assets have not been recognized in respect of these temporary differences because it is not probable that future taxable profit will be available against which the Company can utilize the benefits.

The Finland subsidiary non-capital loss set to expire between 2027 and 2030 if not utilized.

Mining tax credits will expire between 2027 and 2034. Capital losses may be applied against capital gains income in future periods. Deferred financing costs will be fully amortized in 2024. The remaining deductible temporary differences may be carried forward indefinitely.

22. Subsequent Event

The Company's operations could be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the recent outbreak of respiratory illness caused by COVID-19. The Company cannot accurately predict the impact COVID-19 will have on its operations and the ability of others to meet their obligations with the Company, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect the Company's operations and ability to finance its operations.
