## NEWS RELEASE

### RUPERT RESOURCES REPORTS RESULTS FOR 12 MONTHS ENDING FEBRUARY 28, 2021

June 25, 2021

Rupert Resources Ltd (“**Rupert**” or the “**Company**”) announces that it has published its audited financial results for the twelve months ending February 28, 2021 and accompanying Managements Discussion and Analysis for the same period.

Both of the above have been posted on the Company’s website [www.rupertresources.com](http://www.rupertresources.com) and on Sedar at [www.sedar.com](http://www.sedar.com).

During the 12 months ending February 28, 2021, the Company spent \$14,637,057 (12 months ended February 29, 2020 - \$9,571,101) on its exploration projects. As of February 28, 2021, Rupert held cash or cash equivalents of \$21,724,305. The Company recorded a net loss and comprehensive loss for the year of \$(7,343,327) (12 months ended February 29, 2020 - \$(5,159,127)) and a net loss per share of \$(0.05) (12 months ended February 29, 2020 - \$(0.04)).

James Withall, Chief Executive Officer of Rupert Resources said, “*Following the closing of the \$48.7million financings earlier in June, Rupert’s work programmes are now fully funded for at least the next two years. Further funding beyond the forecast budget is anticipated from in-the-money options and warrants. We now have full visibility on our cash position and capital structure as we continue to derisk the Ikkari discovery whilst continuing our program to find deposits of scale in Northern Finland.*”

#### **Operating Highlights**

##### Discussion of Operations

During 2020/21 and up to the date of this document, Rupert’s operational activities have been entirely focussed on Pahtavaara and Hirsikangas, with the key focus being on Pahtavaara.

##### Pahtavaara, Northern Finland

Pahtavaara is comprised of a package of mining licences, exploration licences, claims and reservations for exploration totalling an area of 509 km<sup>2</sup> and held by wholly owned subsidiaries of the Company and including the mine at Pahtavaara (the “Pahtavaara Mine”).

The work program at Pahtavaara is designed to identify and evaluate the mineral potential contained in the Pahtavaara Licence Area, including in the vicinity of the Pahtavaara Mine. Following completion in May 2020 of a circa 25,662m program (comprised of a 16,569m regional

diamond drill campaign and a further 9,093m at the Pahtavaara Mine), in July 2020 Rupert commenced a 40,000 to 50,000m (subsequently increased to circa 60,000m) diamond drill program to further evaluate six new discoveries made in an area within the Pahtavaara licence package known as Area 1, as well as continuing to generate new targets.

Base of till sampling continues across the Pahtavaara Licence Area, with circa 16,935 samples collected to end May 2021 over geophysical anomalies of interest.

Further to completion of a 9,093 metre drill programme at the Pahtavaara mine in 2020, which *inter alia* identified high-grade, near surface plunging shoots, as well as potential extensions to mineralisation on the southern flank of the deposit, it was concluded that further drilling should be carried out prior to updating the Mineral Resource Estimate at the Pahtavaara Mine. As of mid-May 2021, 9131m of a planned diamond drill program of circa 10,000 metres had been undertaken from both surface and underground.

### **Financial Highlights**

Rupert's net loss totaled \$7,343,327 for the 12 months ended February 28, 2021 with basic and diluted loss per share of \$0.05. This compares with a net loss of \$5,159,127 with basic and diluted loss per share of \$0.04 for the 12 months ended February 29, 2020. No revenue was recorded in either period. As at February 28, 2021, the Company had cash and cash equivalents of \$21,724,305 (February 29, 2020: \$(14,313,403)).
